

FAHS MFP FELLOWS WEBPAGE

In effort to introduce you to the MFT community (and the public at-large) we have designed a FAHS MFP Fellows webpage. This webpage includes a photo of you and short bio not to exceed **500 words**, both of which you will be expected to provide to us. Please take a moment to visit our [MFP Fellow Bio webpage](#) to get a feel for how your page will be laid out. Please return your bio in a **Word Document**.

Bio: Your bio, in third person, in a word document, should include the following:

- 1) Who you are (i.e., where you were born, your home city and state, and where you currently attend school), your passions, and other interests that might provide the reader with a feel for your personality. This is your opportunity to introduce yourself to the wider community.
- 2) You should discuss your (1) current interests in marriage and family therapy and/or other areas of mental health and (2) detail your related experiences and training to date.
- 3) Describe how you believe your (1) training, (2) research interests, and (3) career goals will contribute to an increase in the field's general knowledge of issues related to mental health and substance abuse treatment or prevention.

Additionally, candidates must submit a 30-45 sec video clip answering the following questions:

- 1) What is your name?
- 2) Where are you from?
- 3) What does receiving an MFP Fellowship Award mean to you?
